Logic

1. 25 miles. Since they are travelling at a combined speed of 25 miles per minute toward each other, they will be 25 miles apart one minute before they meet.
2. Their faces were pointing toward each other and they were going in a straight line. However, when Miss Led saw Hardy, she walked backward for 200 yards
3. 12 years. Five years ago, she was 7 years old. In two more years, she will be 14, double that age from five years ago.
