

STARFLEET SHAKEDOWN OPERATIONS ACCELERATED SHAKEDOWN PROGRAM

PROGRAM SUMMARY:

Some groups, whether they are new groups comprised of long-time members who have "been there, done that" or groups of members who have been together already for a while (i.e., independent club seeking to become a STARFLEET Chapter or a former Chapter seeking to return to STARFLEET), may need a shorter period of time to become acclimated to functioning as a current STARFLEET Chapter than would a newly-forming group comprised of members new to running a club. The Accelerated Shakedown Program (ASP) is designed to support this particular category of group.

The ASP allows for a shortened Shakedown Cruise in cases where groups already have in place elements of their organization that a group starting from scratch would develop during the course of their Shakedown Cruise. A series of such elements has been developed by ShOC and are listed below. If a prospective STARFLEET Chapter feels that they may be eligible for the ASP, they should contact the Chief of Shakedown Operations and make their request. They should be prepared to submit supporting documentation/evidence to support any request for a time-reduction to their Shakedown Cruise.

PROGRAM PARAMETERS:

- 1) The **minimum** shakedown period will be 5 months, regardless of what elements from the ASP a Shakedown Chapter meets to reduce the time of their Shakedown Cruise.
- 2) Reductions in the shakedown period will be defined by aspects of the Shakedown Program already completed by a new and/or reforming group, or characteristics which a group may already possess that the Program is designed to help develop.
- 3) The following table includes the currently-established time reductions, as derived from the current edition of the START Manual. All relevant characteristics or achievements may be applied to the reduction until the minimum Shakedown Cruise period is reached.
 - a. This list is not necessarily exhaustive, and other possibilities for eligible aspects/characteristics may exist. ShOC is open to any suggestions.
- 4) A group applying to enter the ASP shall submit a list of all applicable characteristics/achievements, and documentation of same, to the Chief of Shakedown Operations. These will be reviewed and a determination of time-reduction made.
